DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Farquhar et al. (U. S. Patent 5,397,857).

Farquhar discloses a metal housing grounding mechanism as shown in figures 1-4 comprising:

- a housing (16; 18, column 2, lines 60-63);
- a circuit board (28, column 4, line 1) inside said housing;
- a connector (not shown) installed on one side of said circuit board (28);
- two metal boards (12, 14, column 2, lines 61-62) located on a top and bottom of said connector respectively while one of said two metal boards connected to ground (column 2, lines 66-68, column 3, lines 1-11); and
- a spring tongue (26-figure 3, column 3, line 27) located on both ends of said metal board.

wherein said spring tongue of one said metal board and said spring tongue of the other said metal board brace together (see figure 4) so as to make the two metal boards connect and conduct together.
